

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

### Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

### About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. ## PREFACE

TO THE FIRST LONDON EDITION.

---

THE Author of the following pages, with a view to correct the then increasing evil of false and inaccurate Pedigrees, was, in the year 1791, prevailed upon to publish

*"An Introduction to a General Stud Book,"*

consisting of a small collection of Pedigrees which he had extracted from Racing Calendars and Sale Papers, and arranged on a new plan.

By the kind patronage and assistance of the principal Breeders and other Noblemen and Gentlemen of the Turf, it has grown into a bulky volume, which is now offered to the Subscribers and the Public, not as a *universal* Stud-Book, nor as perfectly free from error, but with a confident hope that it will be found to contain, in the most concise and most approved form, a greater mass of authentic information respecting the Pedigrees of Horses, than has ever before been collected together.

*March 25, 1808.*

## P R E F A C E

TO VOL. II. FIRST LONDON EDITION.

---

To assist in the detection of spurious and the correction of inaccurate pedigrees, is one of the purposes of the present publication, in which respect the first Volume has been of acknowledged utility. The two together, it is hoped, will form a comprehensive and tolerably correct Register of Pedigrees.

It will be observed that some of the Mares which appeared in the last Supplement (whereof this is a republication and continuation) stand as they did there, *i. e.* without any additions to their produce since 1813 or 1814.—It has been ascertained that several of them were about that time sold by public auction, and as all attempts to trace them have failed, the probability is that they have either been converted to some other use, or been sent abroad.

If any proof were wanting of the superiority of the English breed of horses over that of every other country, it might be found in the avidity with which they are sought by Foreigners. The exportation of them to Russia, France, Germany, &c. for the last five years has been so considerable, as to render it an object of some importance in a commercial point of view. But this advantage some of our continental neighbours are of opinion will not long remain with us: they are fully aware of the source from whence we derive this superiority, and are in consequence

endeavouring to establish Races on the English plan, which, together with a more careful selection of stallions and mares than they observe in England, will very soon, they say, enable them to excel us, and they anticipate a day (not very distant) when the English must send to the Continent, if not for speedy, at least for *sound* horses.

This hint about soundness may be worth attention, but for the rest, with the advantages this country already possesses, and so long as Horse-racing continues to be followed up with spirit by men of rank and opulence, there can be little to apprehend.

To the principal Breeders, whose assistance has been so obligingly afforded, the Editor takes this opportunity of returning his sincere and grateful acknowledgments, as well for past communications, as, in some instances, for the promise of an *annual* list for the future from themselves or their Stud-grooms, of all the foals they breed: this he most thankfully accepts, as a means of facilitating any future publication, and by adopting in some degree the practice of the original Compiler (who never suffered a day to pass without adding or correcting) he hopes, should he live to publish another Volume, the undertaking may prove less laborious, and the book itself be more perfect.

To many others besides the Proprietors of Studs, he feels himself greatly indebted, and begs them to accept his sincere thanks.

*December 31, 1821.*

## GENERAL STUD BOOK.

**EXPLANATION.**—To find the pedigree of any horse, refer to his name in the Index ; for example :—

Pontae . . . . . Page 1.

In this page it appears that *Pontae* belonged to Sir L. Dundas, that he was foaled in the year 1772, was got by Marske, out of A-la-grecque, by Regulus, her dam by Allworthy, &c. &c.

To find his performances on the Turf, refer to his owner's name in the Indexes to the Racing Calendars, when Pontae was 4 years old, and upwards. Horses of the present day commence running at 3, and some at 2 years old.

This mare was barren in 1775, 1777, and 1779, and died in the spring of 1781; Highflyer's only sister dislocated her hip, in running at Nottingham in 1783, and died in two hours.

☞ Highflyer never paid forfeit, and was never beaten. The author is induced to deviate thus far from his general plan, at the request of an old sportsman, from whom he learns that many bets have been made on this fact, owing to an error in the Index to the Racing Calendar for 1777, wherein Highflyer is confounded with a colt of the same age, got by Herod, out of Marotte.—Highflyer was bred by Sir Charles Bunbury.

N. B.—*Mark Anthony*, *Conductor*, *Pyrrhus*, and *Pantaloon*, were all of a year, and all the first foals of their respective dams.

It has often been asserted that the above Tartar Mare foaled Queen Mab at the age of 36, but we are of opinion that this is rendered more than doubtful by the circumstance of Tartar's having been in training in 1748 and 1749, and of there being no record of any other of his get foaled so early by several years, or of his having covered before he was finally put out of training.

## FOURTH PART.

### BIANS, BARBS, AND TURKS.

THE FIRST bought an Arabian of Mr Markham, a mer-  
said (but with little probability) to have been the first of  
een in England. The Duke of Newcastle says, in his  
emanship, that he had seen the above Arabian, and de-  
small Bay Horse, and not of very excellent shape.

TURK was the property of the Duke of Buckingham,  
c.c.

TURK was the property of Mr Place, studmaster to  
when Protector, and was sire of Wormwood, Commoner,  
dams of Wyndham, Grey Ramsden, and Cartouch.

King Charles the Second sent abroad the Master of the  
a number of foreign horses and mares for breeding, and  
over by him (as also many of their produce) have since  
Mares.

ough foaled in England, was a natural Barb. His dam  
imported in the time of Charles the Second, and was  
re. She was sold by the studmaster, after the King's  
twenty years old, when in foal (by the Helmsley Turk)  
f the Old Child mare.

or LISTER TURK was brought into England by the  
from the siege of Buda, in the reign of James the Se-  
ake, the Duke of Kingston's Brisk, and Piping Peg,  
am of Hip, and the grandam of the Bolton Sweepstakes.

**The BYERLY TURK** was Captain Byerly's charger in Ireland, in King William's wars (1689, &c.) He did not cover many bred mares, but was the sire of the Duke of Kingston's Sprite, who was thought nearly as good as Leedes; the Duke of Rutland's Black Hearty and Archer, the Duke of Devonshire's Basto, Lord Bristol's Grasshopper, and Lord Godolphin's Byerly Gelding, all in good forms; Holloway's Jigg, a middling horse, and Knightley's mare, in a very good form.

**GREYHOUND.** The cover for this foal was in Barbary, after which both his sire and dam were purchased, and brought into England by Mr Marshall. He was got by King William's White Barb, *Chillaby*, out of Sluggie, a natural Barb mare. Greyhound got the Duke of Wharton's Othello, said to have beat Chanter easily in a trial, giving him a stone, but when falling lame ran only one match in public, against a bad horse; he also got Pantons's Whitefoot, a very good horse; Osmyn, a very fleet horse, and in good form for his size; the Duke of Wharton's Rake, a middling horse; Lord Halifax's Sampson, Goliah, and Favourite, pretty good 12 stone Plate horses; Desdemona, and other good mares; and several ordinary Plate horses, who ran in the North, where he was a common stallion, and covered many of the best mares.

**The D'ARCY WHITE TURK** was the sire of Old Hautboy, Grey Royal Cannon, &c.

**The D'ARCY YELLOW TURK** was the sire of Spanker, Brimmer, and the great great grandam of Cartouch.

**The MARSHALL, or SELABY TURK**, was the property of Mr Marshall's brother, studmaster to King William, Queen Anne, and King George the First. He got the Curwen Old Spot, the dam of Windham, the dam of the Derby Ticklepitcher, and great grandam of the Bolton Sloven and Fearnought.

**CURWEN'S BAY BARB** was a present to Lewis the Fourteenth, from Muly Ishmael, King of Morocco, and was brought into England by Mr Curwen, who, being in France when Count Byram, and Count Thoulouse (two natural sons of Lewis the Fourteenth) were, the former, Master of the Horse, and the latter, an Admiral, he procured of them two Barb Horses, both of which proved excellent stallions, and are well known by the names of the *Curwen Bay Barb*, and the *Thoulouse Barb*. Curwen's Bay Barb got Mixbury and Tantivy, both very high-formed galloways, the first of them was only thirteen hands two inches high, and yet there were not more than two horses of his time that could beat him, at light weights; Brocklesby, Little George, Yellow Jack, Bay Jack, Monkey, Dangerfield, Hip, Peacock, and Flatface, the first two in good forms, the rest middling; two Mixburys, full brothers to the first Mixbury, middling galloways; Long Meg, Brocklesby Betty, and Creeping Molly, extraordinary high-formed mares; Whiteneck, Mistake, Sparkler, and Lightfoot, very good mares, and several middling galloways, who ran for Plates in the North. He got two full sisters to Mixbury, one of which bred Partner, Little Sca, Soreheels, and the dam of Crab; the other was the dam of Quiet, Silver Eye, and Hazard. He did not cover many mares except Mr Curwen's and Mr Pelham's.

**The THOULOUSE BARB** became afterwards the property of Sir J. Pelham, and was the sire of Bagpiper, Blacklegs, Mr Pantons's Molly, and the dam of Cinnamon.

**DARLEY'S ARABIAN** was brought over by a brother of Mr Darley, of Yorkshire, who being an agent in merchandize abroad, became member of a hunting club, by which means he acquired interest to procure this horse. He was sire of Childers, and also got Almanzor, a very good horse, a white-legged horse of the Duke of Somerset's full brother to Almanzor.

as good, but, meeting with an accident, he never ran in Brisk, good horses; Dædalus, a very fleet horse; Dart, and Aleppo, good Plate horses, though out of bad mares; are in very good form, and Lord Tracy's mare in a. He covered very few mares except Mr Darley's, who bred besides Almanzor's dam.

S'S TURK (more frequently called the HONYWOOD Mr Honeywood's two True Blues: the elder of them was in England, for four or five years; the younger was in, and got the Rumford Gelding, and Lord Onslow's racing horses, out of road mares. It is not known that this bred mares except the dam of the two True Blues.

TURK was taken at the siege of Belgrade, by General him to the Prince de Craon, from whom he was a present of Lorraine; he was afterwards purchased by Sir Mar and died in his possession about 1740.

TOCKS, nothing further can be traced from the papers of, than that he was a Grey Arabian, with a red mark whence he derived his name.

ARB was got by Chillaby, out of the Moonah Barb mare.

ARABIAN was a brown bay, about fifteen hands high, on the off heel behind; there is a picture of him and in the library at Gog Magog, in Cambridgeshire, at ed, in the possession of Lord Godolphin, in 1753, being in his twenty-ninth year.

as an Arabian or a Barb is a point disputed (his portrait to the latter supposition) but his excellence as a stallion attested. In 1731, then the property of Mr Coke, he was in, who refusing to cover Roxana, she was put to the in that cover produced *Lark*, the first of his get. It is here is not a *superior* horse now on the Turf, without a Arabian, neither has there been for many years

Original Portrait of this horse in Lord Cholmondeley's collection; on comparing which with Mr Stubbs's print of him, at the disproportionately small limbs, as represented in accord with the painting.

ABIAN was brought over by Mr Mosco, and was sire of Quillus, Lord Orford's Matron, Mr Gorges's Sour Face,iator, &c. &c.

BIAN (sometimes called the *Pigot Arabian*, and some-*broke Grey Arabian*) was sire of Methodist, the dam of

ARB, more commonly called the *Sedley Arabian*, was Greyling, &c.

ABIAN was a small Chestnut horse. He covered at and was the sire of Alert, &c.—Alert had good speed for

Y GREY and CHESNUT ARABIANS (so called) were the East, but evidently not Arabians—the former was a type, with the size and substance of an English hunter.

[N. B. Under the head of "OWNER OR BREEDER," when a horse has run, or is sold with a probability of his being trained, it has been our endeavour to select the person in whose name he first appears, or is likely to appear, in the Racing Calendar, in order to facilitate the search for his performances.—Where the name of the horse is enclosed in a parenthesis (as for example, *Victory* in the 536th page, and *Zedise* in the 539th) it signifies that such name was given by a subsequent proprietor.]
